

PCB Production & Manufacturing Positions

ABOUT WINONICS:

Winonics is about to reveal the future of Printed Circuit Board manufacturing and we'd like you to join us as we grow!

Winonics, an Additive Circuits Technologies, LLC Company located in Brea, CA, is currently executing a multi-million dollar facility-wide renovation plan that includes extensive equipment and technology upgrades along with well-designed and purposeful infrastructure improvements to support lean six sigma manufacturing.

Once completed, the new state-of-the-art facility will offer a vision into advanced technology PCB fabrication with the expectations of creating a world-class PCB manufacturing facility and a research and development center for the company's patented additive manufacturing technology.

The newly upgraded facility will be best in class and will be capable of supporting emerging technologies in aerospace and defense industries, life-critical medical devices, next-gen automotive safety, autonomous driving sensors, RF/Microwave/mmWave communications and enabled 5G connectivity.

PCB Production & Manufacturing Positions:

- General Production/Machine Operators all departments
- Lamination Press and Layup
- Pulse Plating (experienced)
- Outer layer etch
- Via Fill / Planarizer
- Solder Mask
- Final Inspection
- AOI Inspection
- Facilities Maintenance

Prior experience is preferred, but not required of all roles. We value a strong work history, collaborative team approach, and dedication to learning new skills.

Job details:

Salary: Competitive salary and benefits based on experience.

Job Type: Full-time
